

Every day very young human beings

start out looking like this:

and end up looking like this:

And this is happening not just in countries that are ruled by tyrants or where the rule of law is absent or ineffective. This is happening right in our own society, in our own communities, right "under our noses"! In the 1930's and 1940's "good" German people allowed torture and killing to take place. They were not mean or violent people. They just didn't care enough to face what was really going on right in their own "civilized" society. After it was over it was then said, "Never Again!"

It is happening again!

Will we just turn our heads and make believe it isn't happening?

"He who passively accepts evil is as much involved in it as he who helps to perpetrate it. He who accepts evil without protesting against it is really cooperating with it." -- *Martin Luther King, Jr.*

What can you do? Only one thing is really necessary:

Determine that you simply will not tolerate the killing of helpless human beings at any stage of life.

Once you have done that you will find that there are then many things that you can do to help end this slaughter, including joining the Human Rights for All Ages Campaign.
